

### **Installer/Technician**

**Communicomm** is a fast-paced and vibrant organization whose notable strengths are its consumer focus, community involvement and employee dedication. We are committed to our employees, customers and the communities we serve as demonstrated through our sense of urgency, teamwork, and local investment. We value and reward hard work, initiative and a job well done by competitively compensating our employees.

CommuniComm Services has an immediate opening for an Installer/Technician in our Decatur, TX system. This position provides support, and performs simple to complex installations, disconnects, service changes, and repairs, to our residential and business broadband, phone, and data customers. The successful candidate will possess a strong technical and mechanical aptitude, a good personal and work ethic, and a desire to work independently and interact with the public. Candidates with excellent customer service skills preferred. Candidates must be comfortable working at heights and outdoors in all weather conditions. The flexibility to work overtime and on call is required. Previous broadband or IT industry experience and A+ Certification or equivalent is desirable. Qualified applicants must possess and maintain a current driver's license, pass a pre-employment drug screening, a driving record check, criminal background check and provide references.

CommuniComm Services offers a competitive salary and benefits package which includes free cable and internet for employees who live within CommuniComm Service areas, paid time off, medical/dental/vision, life insurance, short-term and long-term disability, 401(k) and flexible spending accounts.
